Project Demo Planning

Date	15 March 2026
Team ID	SWTID-2026-6775
Project Name	FitBuddy - AI Fitness plan Generator using Gemini Models
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Project Introduction & Vision	Overview of FitBuddy, problem statement regarding personalized workout plans, and solution pitch.	2	Team Lead
2	System Architecture & Tech Stack	Explanation of Gemini API integration, prompt orchestration, frontend, and backend architecture.	2	Tech Lead
3	User Input & Preference Selection	Live demo of user input flow: fitness goals, current level, equipment access, and dietary constraints.	3	Frontend Lead
4	AI Plan Generation via Gemini	Demonstration of AI processing, generating customized workout schedules, and diet plans.	4	AI Engineer
5	Plan Customization & Tracking	Showing real-time adjustments, exporting plans, and user profile management capabilities.	2	Fullstack Dev
6	Conclusion & Impact	Summary of results, scalability possibilities, future scope, and final wrap-up.	2	Team Lead

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Highlight current market gaps in static fitness plans and explain why dynamic Gemini AI generation adds value.
2	Solution Overview	Briefly present the application architecture and how prompt engineering ensures safe, accurate fitness suggestions.
3	Live Feature Demonstration	Demonstrate real-time input submission, output rendering speed,
